ANCC AUTOTEST CHAMPIONSHIP 2010

BULLETIN No. 10/ 2010 (Issued 03 December 2010)

Hi All

Yet another disappointing Bulletin, which closes on an another sad note in that we have finished our year with yet another cancellation – Durham AC – although they did not let me know, it was after an entered registered competitor advised me!. That said it has been one of the worst years, if not the worst year as far as cancellations are concerned. With two events lost due to loss of venue (Bolton), one event lost due to lack of entries (Alwoodley), one event having postponed their event to prevent a clash with the Inter Association Autotest, only to have their rearranged event cancelled due to lack of entries (Ilkley) and finally one event postponed due to loss of venue and then having to cancel their rearranged event due to the current weather conditions.

Our competitor registrations were on a par with last year but those competitors entered less events, as a result of amending the events counting towards the Championship to 6 (Bulletin 09) I now reduce the mini mum events to count for awards to 4 from 5 (para 6.6).

I have nothing more to add to a disappointing year, but I hope that we can pull together and recover for next year as I am trying to put a calendar together for 2012 and applied for the Championship Permit and will advise you all shortly.

With next year in mind I have pleasure in advising that we will have across the Board ANCC Championship sponsor, the prospective sponsor approached me on the recent R.A.C. Rally to inform me that some 'money' is available – I will advise you shortly. This sponsor who wishes to attend some rounds and also have a 'display' for the events and subsidised support for each competitor. This sponsorship deal has been secured by our ANCC President , John H. Richardson, for which we are all grateful as well as to our sponsor.

If you have any queries please contact me as above.

Regards,

Graham S. Whitaker
