

710 OIL ANCC Northern Stage Rally Championship 2010

As you might have guessed, the championship now has a sponsor! 710 OIL will sponsor the championship with effect from the Opposite Lock Rally on 24th July. . They are the main motorsports distributor of Fuchs Titan Race and Fuchs Silkolene Motorsport Oils.

710 OIL has over 40 years experience in motorsport. They specialise in the sourcing and distribution of high quality lubricants and consumables to the motorsport and high performance industries, including rallying, racing, rallycross, drag racing and Track Test days. They supply teams at all levels of the sport from club level all the way to WRC and F1.

710 OIL have generously donated £100 vouchers for the overall champion driver and the winning driver of each challenge.

For drivers I have enclosed new stickers supplied by 710 OIL. You may remove the existing ANCC stickers and replace them with one 710 OIL and one Fuchs Titan Race sticker on each side of the car. Please see Article 9 of the championship regulations. If you wish to put more Fuchs Titan stickers on your car, then please do so. Don't hesitate to let me know if you need any replacement stickers.

I have enclosed the latest results. Please note that the results for the North West Stages have been amended following the exclusion of a competitor by a MSC Tribunal.

Regulations have recently been published for the Stobart Rail Pendragon Stages www.pendragonstages.co.uk . If you are thinking of competing, be warned, this is a very popular event.

There is still time to enter the Greystoke Stages Rally www.greystokestages.co.uk , held in Greystoke Forest, Cumbria.

The Opposite Lock Stages at Manby in Lincolnshire www.slaithwaite.co.uk still has room for more entries.

Best wishes,

Paul
